

## TELEGRAPHIC.

Winnipeg, Dec. 13th.

Sir John Thompson, premier of Canada, died suddenly at Windsor Castle, England, yesterday. He was stricken while at luncheon, just after having been sworn in as a member of the Queen's privy council. Sir Charles Tupper will accompany the remains to Canada and the state funeral will be held at Ottawa. Queen Victoria was much affected by the sad event and has sent a message of sympathy and condolence to Lady Thompson. Similar telegrams have been received by the bereaved family from the governor general of Canada, British and Canadian statesmen, and many other prominent personages. Mourning is general throughout Canada, the press and public men commenting favorably on the deceased premier. English newspapers also eulogized the dead statesman. Lord Aberdeen has not as yet called upon anyone to form a cabinet.

Serious trouble is expected at Samoa. Van Horne has arrived in London. E. S. Wilson an ex-miner, suicided at Revelstoke.

Louise Rothschild, widow of Carl Rothschild, is dead. Ten persons were bitten by a mad dog at Mount Vernon, Ohio.

Cable cars in Chicago collided in a tunnel and many were injured.

The two children of John Boyd, Port Elgin, were accidentally drowned.

Wm. H. Price, of Chandler and Price, Cleveland, was killed by burglars.

The police, a semi-military organization of British Honduras, have revolted.

Henry Elias, the New York millionaire brewer, died of self-inflicted injuries.

Prince Adolphus of Teck and Lady Margaret Grosvenor, were married yesterday.

A dead body, supposed to be that of David O. Black, was found near Strathclair, Man.

Charles Forward of Lagenburg, N. W. T. attempted to murder his brother, last Wednesday, and was afterwards frozen to death.

The retiring trustees of Edmonton district are Jas. McDonald, John Cameron, J. A. McDougall and M. McCauley.

THE MacLeod Gazette finds it necessary to explain to an irate correspondent that it does not control the matter appearing on its two inside pages, which are printed in the east. This system it says is adopted in common with the majority of Northwest papers. The BULLETIN is glad to be able to inform its subscribers that in this case it forms one of the minority, and is in full control of all matter appearing in its pages. That instead of asking its local subscribers to pay for the setting of type in Winnipeg or Toronto or elsewhere, all its type setting is paid for right here and the money is thus kept in the country.

THE mock parliament sat on Tuesday evening. There was a good attendance both of members and spectators. W. Carey introduced a measure in regard to immigration. Provision was made for 20 salaried agents in the States and 20 in Europe, charged to select only such persons as were financially and otherwise suited to begin life in the west. An amendment was proposed by the opposition providing for payment of agents by results at the rate of \$10 per immigrant. After a spirited discussion in which a large number of members took part, the government was sustained by a majority of four.

A SOCIAL in aid of the talent fund of the Presbyterian church, was given by Mrs. Jas. Lauder, senior, at her residence, Fraser avenue, on Tuesday evening. There was a large attendance. Cornet duet, Messrs. Clark and May. Auld Lang Syne, brought the proceedings to a close.

## EDMONTON STREET RAILWAY.

A meeting of the provisional directors of the Edmonton street railway company, was held last evening, in the council chamber. E. C. Emery was appointed solicitor and A. G. Randall secretary. The secretary was instructed to write to the minister of public works, that the company which was incorporated at last session of parliament, had delayed operations in the hope of a bridge being built across the Saskatchewan—to make connection between the town and railway station, having been the prime object of the organization of the company. The company desires to point out to the government that if the proposed bridge were erected at the upper proposed site, it would practically prohibit the construction and operation of the railway on account of the circuitous nature of the route and the steepness of the grade out of the valley on the south side by that route. Also if the bridge is placed at the lower proposed site, the company will be ready to proceed at once to give effect to the provisions of their charter.

## EDMONTON CENSUS.

A DIRECTORY and census of the town of Edmonton has been compiled by J. B. Spurr at the direction of the board of trade. The work has been done as carefully as possible, in the limited time allowed. It shows the resident population of Edmonton to be 1,267, against 1,021 as given by the mounted police census, published in last issue, a difference of 236. Mr. Spurr has taken down the name, residence and occupation of every person counted, so that there can be no question as to those whose names appear,—the only possible question is as to such as have not been counted.

Names appearing on hotel registers, and transient visitors, have not been counted. Children under the age of 15 number 351. In reference to the dispute of last fall regarding a school site it may be remarked that 177 of those reside west of McDougall street and 174 east of that street. The census contains the information that there are eight coal mines in town, employing 38 men and supporting 59 persons. There are 288 residences exclusive of business houses, but including those places of business in which the owners reside.

#### MORE BRIDGE.

In order that the public may be fully aware as to what constitutes the alleged division of opinion amongst the townspeople of Edmonton as to the bridge site, a letter of Thomas Anderson, Dominion lands agent at Edmonton, dated on October the 8th, and addressed to the department of public works, Ottawa, which appeared in the editorial columns of the South Edmonton News, of last issue, is republished in this issue of the BULLETIN. No doubt it was on the strength of this letter that the minister of interior telegraphed to the board of trade here regarding a division of opinion as to the bridge site. The letter makes perfectly clear that there is a division of opinion—between Mr. Anderson and the town. It is not the first occasion on which Mr. Anderson has differed from the rest of his fellow citizens in his views. Indeed it would be difficult to rake up an occasion on which he did not do so. The present difference therefore between Mr. Anderson and the other twelve or thirteen hundred citizens of the town is only in the ordinary course of events and proves nothing as to the merits of the case. The only necessity that exists for reference to Mr. Anderson's letter is the misstatements which it contains. When he intimates that the road to the station by the present lower ferry crossing is two miles longer than by the upper ferry; that people are "compelled" to take that route by any manner of means; that the route by the lower ferry is through bad ground; that Mr. Whyte of the C. P. R. said to a meeting of Edmonton citizens that "no railway bridge would be built opposite their town;" that the lower bridge site is at the extreme east end of town; that the town extends four miles from east to west, or that his proposed site is the best for all parties, he states what is utterly and absurdly untrue in each particular. Mr. Anderson occupies an important position in the service of the government here, and holds a high place in their confidence; that he should abuse that confidence with the deliberate intent of injuring established business interests is something more than a fault, which if it is overlooked by his superiors they must be held jointly responsible for.

The article in which Mr. Anderson's letter appears is appropriately headed "Unpremeditated Gall." No doubt the supreme gall which is exhibited did not strike the editor when he concocted the heading. It is only three issues ago—in its second number—that the News had an article in which it commented in most exaggerated terms upon the "disastrous" position of Edmonton, "owing to the river being in such an unsatisfactory state" for lack of a bridge, and pointing in glowing terms to the happy position of South Edmonton which did not suffer from such lack of a bridge. The article tried to make it very clear that Edmonton, not South Edmonton, needed a bridge. Now when the question of the location of the bridge is up the News and its friend Mr. Anderson presume to direct the bridge which is not for their that use or benefit, shall be located at a point where it will be of the least possible use or benefit to those who will in the nature of things require to use it most, and are the only ones who are willing to help to pay for it. As a sample of gall this certainly beats the band. It is of a piece with the assertion in a recent issue of the News that "No doubt the bridge would have been constructed years ago had the town of Edmonton been satisfied with a traffic bridge and not insisted on a railroad bridge as well." Mr. Anderson places the date at which the bridge would have been proceeded with at 1890, a date when there was no incorporated town of Edmonton to assist or object, and when there was no railroad to

cross on the bridge, had it been built. Years have elapsed since then, during which time no claim has been made for a railroad bridge; and even now when a demand is made for financial assistance from Edmonton, there is some doubt as to its being built. Certainly it never will be of Mr. Anderson or his News can keep it from being built where it will be of benefit to Edmonton.

Why is there such a fuss and such palpable attempts at delay in the construction of so necessary a public work as a traffic bridge across the Saskatchewan at Edmonton? Why is the town of Edmonton asked to contribute to what is essentially a public work, evidently in the hope that the unfairness of the proposition would cause its rejection and give further excuse for delay? It is not the cost; for since the railroad has been completed to the south side of the river and the bridge thereby made necessary at this point, hundreds of thousands of dollars have been spent on other public works in the Territories not one of which was half so useful or necessary. During the past summer a court house building was erected in Regina costing \$45,000, nearly as much as the bridge would cost, and not a word about it. Regina was not asked to contribute a cent towards the building. And this is only a sample case. The conclusion is forced that the delay in the construction of this bridge was a part of the policy of the government as influenced by the speculative land interests along the C. & E. line. It is a well known fact that as long as the Saskatchewan remains unbridged the river is a hindrance to settlement north of it. New settlers coming into the district are deterred from coming north of the river by reason of the lack of a bridge. Therefore many are induced to settle at points along the line who otherwise would have crossed the Saskatchewan. The development of the country north of us has been purposely held back with a view of benefitting the region further south. This is the way the matter has worked and if this is not the motive then let some other intelligent motive be assigned. Edmonton's interest in the bridge is the same as the legitimate interest of South Edmonton, namely, to secure the fuller development of the country to the north, and to centre business permanently at this particular point on the river so that should the railway at some future date in extending its line desire to side track both Edmonton and South Edmonton—and both are in the same box in that particular—it cannot be done. To secure these points effectively, it is necessary that the bridge should be located at the point of most convenient access from both sides of the river, and that point is at the lower site.

#### EVIDENCE.

With a view of placing before the public the facts in regard to the advantages which the route between Edmonton and the railway station by way of the lower ferry has—which is the same route as would be followed by way of the lower site of the proposed bridge,—as compared with the route by way of the upper ferry,—the chief objection to which is the steep grade out of the valley on the south side, which would be the same for the bridge at the upper site,—the BULLETIN has interviewed the people who do the most crossing of the river.

M. McCauley is the mail contractor, has had the contract ever since August of 1891, when the railway was completed. Crosses eight times a week carrying mail. Also handles the express business for Edmonton. Crossed at the upper ferry until the lower ferry was established in the fall of 1891. Since then has crossed at the lower crossing both in winter and summer. Has been in the implement business since 1891. Imported five cars of implements and vehicles this year, four cars last year and four cars the year before. Hauled all these across at the lower ferry. Has shipped three cars of grain this year, four last year and three the year before. Hauled all this grain across at the lower crossing. Also hauls a great deal of farmers' grain going to the mill by this crossing.

D. C. Robertson started the Edmonton Cartage Co. in August 1891 to haul between the station and town. Hauled by way of the upper ferry until the lower ferry was established in the fall of 1891. Afterwards hauled almost entirely by way of the lower ferry and crossing, because the grade on the south side was so much the best.

Jas. Dinner, present proprietor of the Edmonton Cartage Co., took over the business from D. C. Robertson in January last. Since then has done all or nearly all the hauling from the station for the following firms: H. H. Co., town store, general, wholesale and retail; Massey Harris Co., general store; Edmonton Hardware Co.; Ross Bros. hardware; G. E. & J. Galt, wholesale groceries; Mackenzie & Powis, wholesale groceries; John Cameron, general

store; J. A. McDougall, general store; Edmonton Saddlery Co.; Brown & Curry, general store; W. T. Henry & Co., gents' furnishings; Sutter & Dunlop, gents' furnishings; W. Johnstone Walker, dry goods; G. H. Graydon, drugs; D. W. Macdonald, drugs; E. Raymer, Jeweler; BULLETIN; Frank Osborne, lumber and shingles; Hetu & Chave, lumber and shingles; Fraser & Co., lumber and shingles; K. A. McLeod, cash and doors; J. T. Howey, furniture; T. G. Lander, fruit; T. W. Lines, flour; Jas. Gibbons, liquors; C. Gallagher, meats; Geo. Hutton, machinery and vehicles; W. R. Howey, meats, etc., etc. Has hauled all freight for these and other parties by way of the lower ferry crossing in winter and summer. In hauling to the H. B. warehouse at the Fort has crossed by the upper ferry when the lower ferry was not running, but not otherwise. Also hauled some twelve cars of grain across to the station by way of the lower ferry for T. W. Lines.

S. Garnham, who established the daily bus between Edmonton and South Edmonton in August and makes two round trips per day, uses the lower crossing almost entirely.

All brick used in South Edmonton is hauled across by the lower ferry route.

All coal sold in South Edmonton from the mines in Edmonton is hauled by the lower crossing.

Fully three fourths of the grain which is hauled across the river by farmers to the mill or railway station goes by the lower crossing.

The free ferry that was put on last summer was put at the lower crossing, on account of the better route, although the actual crossing at the upper is the best, because of the swifter water.

# THAT "CONFLICT."

The following letter appeared in the editorial columns of the last issue of the South Edmonton News:

EDMONTON, OCTOBER 28TH, 1894.

The Secretary of the Department of Public Works, Ottawa.

SIR.—I have the honor to address you in re the traffic bridge across the river Saskatchewan at Edmonton.

On the 12th November, 1889, No. 29435, subject bridges, your department did me the honor to select me to examine and report on a suitable location for a bridge, I did so and reported fully on the 4th December, 1889. In March, 1890, three members of the Board of Trade, and now councillors of the town, the town not being then incorporated, called at my office and I showed them my report on the traffic bridge, they one and all pronounced it the best selection that could be made; but since then the town site on the south side having been laid out, they have made a road from the station one mile longer, and through had ground at the extreme east end of the town, so as to compel all traffic from St. Albert, Morinville, Stony Plain, River Quil Barre, and the great northern traffic, whose traffic greatly exceeds that of the town proper, to pass through the town to get to the depot at the south side, thus making them go two miles out of their road to get there and the same two miles in going back, and the town one mile. I may mention Mr. Balfour, engineer of bridges for the Canadian Pacific Railway, and Mr. McLeod, engineer for the Calgary & Edmonton railway, both pronounced the best selection that could be made, and engineers from your department have, I believe, reported favorably on it.

The reason it was not proceeded with in 1890 was that the Board of Trade insisted on a railroad bridge as well. It was referred to the department of railways and canals, and so closed the affair for the time. Mr. Whyte, of the C. P. R., informed the same parties that "NO RAILWAY BRIDGE WOULD BE BUILT OPPOSITE THEIR TOWN." This was at a meeting held at their request. One reason given for wishing to have it at the extreme east end of the town is to secure the Clover Bar trade. This ought not to weigh in the decision, as they have a ferry at Clover Bar. The town site extends for miles from east to west, and the site I selected is about one mile from the east end of the town.

The south side town and district all favor the shortest road, it being the best for all parties.

I have the honor to be, sir,

Your obedient servant,

THOS. ANDERSON.

WETASKIWIN.

COMMUNICATED.

The public examination of the school children was held on Friday last, by the teacher, Miss Talbot. A number of the parents and friends of the children attended. Most of the children showed considerable intelligence in their answers, and proved the excellent manner in which they have been taught. Miss Talbot's manner of teaching is such as to develop the intellects of the children and at the same time retain their interest in their work throughout. The work of the school does the teacher very much credit. Miss Talbot in addressing those present expressed her regret that some of the children had purposely been kept away from the examination, which did not give her a fair chance of showing what she had done. She was sorry that she had not had the thorough support of some of the parents, without which it was impossible to do that justice to those children, which she would desire. She felt that there should be perfect sympathy and good feeling between a teacher and the children under her charge, and this could not be thoroughly obtained unless she was supported by the parents, and the minds of the children encouraged in her favor. Probably the best proof of the good working of the school is in the Inspector's report. This report about two months ago, was extremely good, and the inspector in conversation stated that this is the best worked school in Northern Alberta except that at Edmonton. It is to be hoped that the school trustees will be able to retain Miss Talbot's services, and that all the parents will as much as possible assist her by encouraging the children themselves, and improve the school generally.

## GENERAL NEWS.

The 300th anniversary of the birth of Gustavus Adolphus, the Swedish hero king, was celebrated throughout Sweden and Prussia, and a great part of Germany, on December 9th.

Battleford Herald: A radical change has been decided on in the mounted police. In future no married man under the rank of staff sergeant will be allowed take on again at the close of his present engagement. This will throw out a number of the best men in the force unless they receive promotion and so come within the provisions of the new rule.

Battleford Herald: The directors of the Winnipeg industrial exhibition have given the gold medal presented by Lieut. Governor Mackintosh to W. H. Sinclair as being the Territorial exhibitor who took the greatest number of prizes at the show. The contest was between Mr. Sinclair and Senator Perley. The prizes were for cattle raised by Mr. Sinclair on his place at Forty-Mile Lake in this district.

Japan has notified China that no further peace proposals will be considered unless made by a regularly accredited ambassador from the Chinese court. At the same time Japan reminds China that it is not Japan but China that is suing for peace. Japan is dissatisfied with China's temporizing policy and claims that China is seeking concessions in advance of a formal conference looking to a settlement.

MacLeod Gazette: It will be a surprise to most of our readers to know that there were nearly three times as many cattle shipped from the eastern part of the Territories and Manitoba as from Alberta and the range country. 30,000 head is the record for the season just closed—an increase of seventy per cent. on last year—and of this number, not more than ten or twelve thousand were produced on the ranches.

Winnipeg Tribune: Revs. Dr. Du Val, H. Peckley and C. R. Turk, the committee appointed by the ministerial association for that purpose, met Rev. Dr. Eby on Tuesday afternoon in the Grace church parson-

age, and heard his statement of his plan to raise a loan fund for the benefit of the Moravian settlers northeast of Edmonton. His proposition is, in brief, not to appeal to charitable contributions, but to deliver a series of lectures throughout the Dominion, explain the situation of the people whom he desires to aid, and devote, if possible, \$2,000 of the proceeds to the purpose indicated. It was arranged that he should inaugurate his work in Winnipeg on Tuesday evening next, 11th inst., in the Central Congregational church, by delivering his lecture on "Japan, ancient and modern."

The wheat shipments from Manitoba this year were larger than ever before in its history. As nearly as can be figured the exports of wheat via Port Arthur and Fort William were 8,400,000 bushels of wheat ground into flour, 2,500,000 of wheat; via Duluth, 1,000,000, equal to a total of over 12,000,000 of the crop exported during the season of its growth. About 90 per cent of the crop found its way to market via United States routes, the bulk of it being transhipped at Buffalo. There were cases this year where the St. Lawrence charges for 200 miles of transportation from Kingston to Montreal were equal to the lake freight from Duluth or Port Arthur to Kingston, 1,000 miles. That is no doubt a strong reason why Canada is losing her carrying trade. Fifteen hundred cars of stock have passed Port Arthur since January 1, 1,375 of these were cattle worth \$750,000, besides the freight, nearly \$250,000 more, the other 125 cars were horses, pigs and sheep.
